Dear QuEBS Participants,

We would like to warmly welcome you to Heraklion!

After a two-year absence, we hope that the 12th QuEBS workshop will revitalize the scientific exchange on quantum biology and inspire the new members of this vibrant community.

The 12th QuEBS workshop features about 80 attendees, 42 oral presentations, 26 posters, and ample time for informal discussions on several hot topics of quantum biology.

In the following pages you can find the program, a map of downtown Heraklion with some points of cultural interest, and the contact information of the workshop's participants.

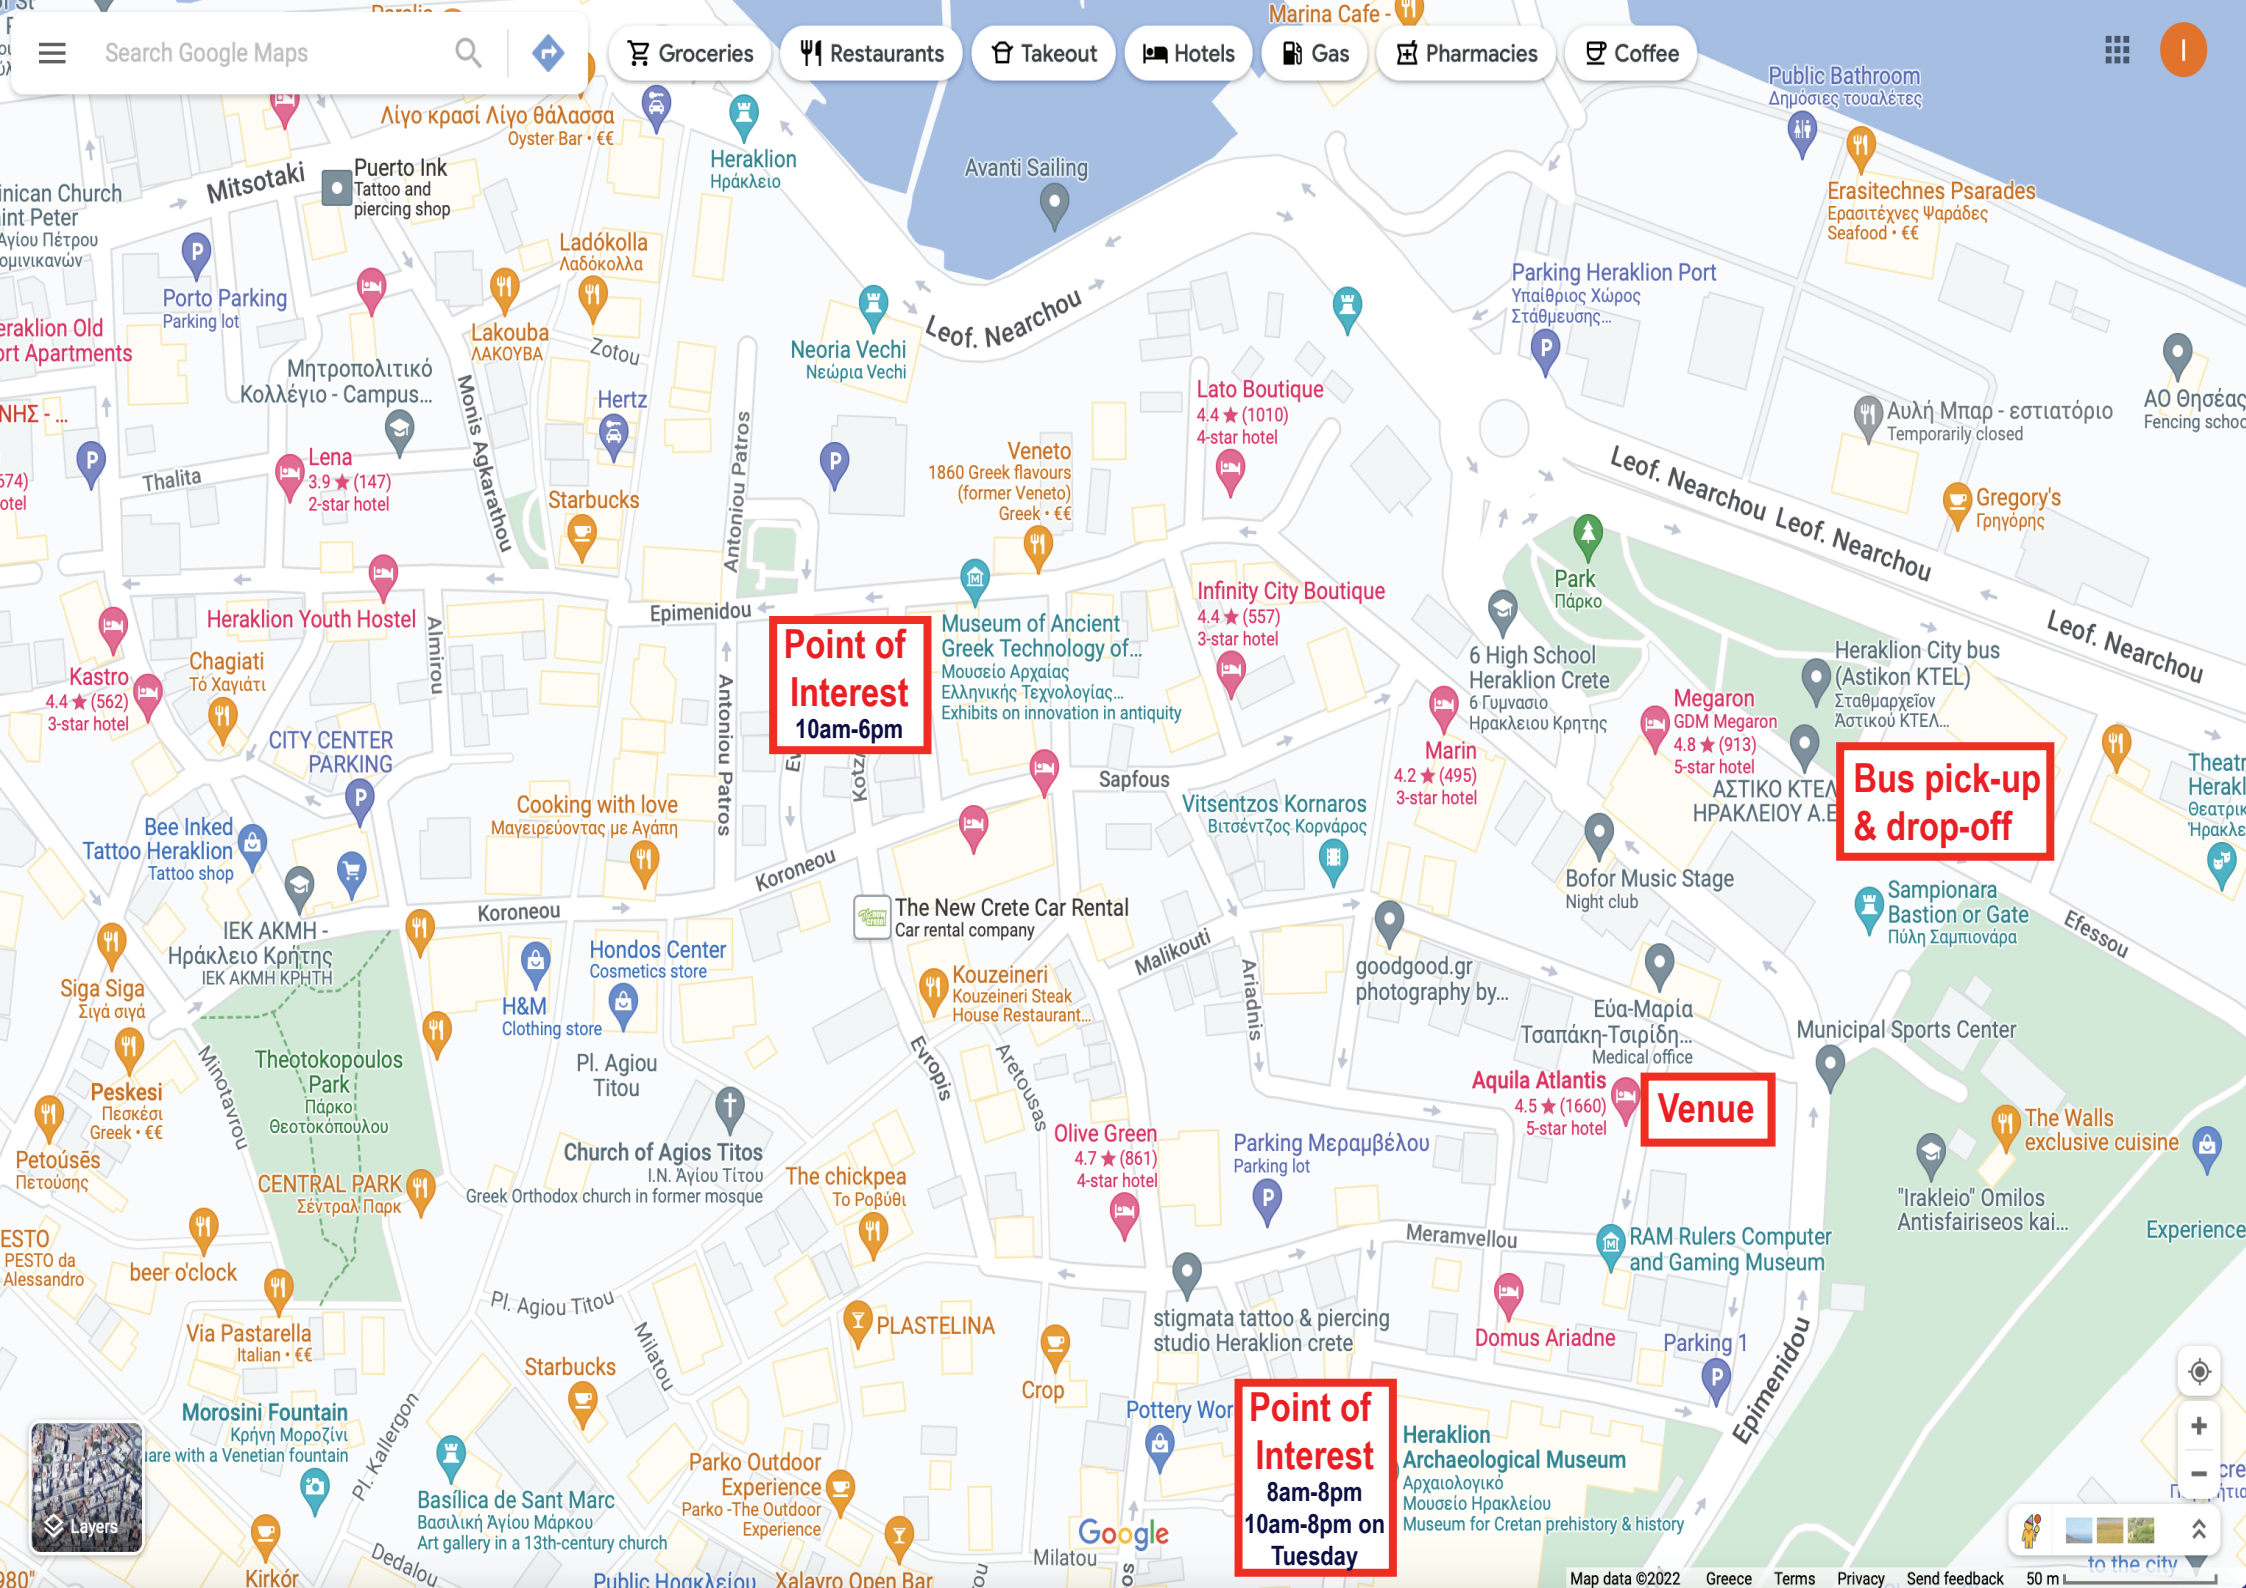

We wish you a pleasant stay and a fruitful scientific meeting!

Iannis Kominis
Efthimios Skoulakis
Luca Turin
